1. Affected product

Product	Outline	Control code [Note]
IE-70000-CD-IF-A	Interface card for IE Series	A, B, C

It is not necessary to upgrade a control code D product.

2. Details of upgrade

The bug described below will be corrected (addition of specifications). After upgrading, the control code will be D.

(1) Bug in 32-bit interface Control code: A, B, C

This bug occurs in the G2 Series (provisional name), which is under development, and does not affect the following products.

- NS type: IE-78K0S-NS(-A), IE-78K0-NS(-A)
- V85x type: IE-703002-MC, IE-703100-MC, IE-703102-MC, IE-V850E-MC, IE-V850E-MC-A

3. Upgrade petition period

From September 3, 2001.

The upgrade described herein will be provided for free for a period of one year from the above date. After the free upgrade period expires, upgrade will be available for a fee. You are advised to take advantage of the free upgrade offer during the free upgrade period.

Note The "control code" is the second digit from the left in the 10-digit serial number in the warranty supplied with the in-circuit emulator you purchased (if it has not been upgraded). If the in-circuit emulator has been upgraded, a label indicating the new version is attached to the in-circuit emulator and the x in V-UP LEVEL x on this label indicates the control code.
